METALTREAT AF13-10

Silicone Based Antifoam/Defoamer

DESCRIPTION: *METALTREAT AF13-10* is a silicone based emulsion used primarily in aqueous waste treatment systems where quick knockdown is required.

BENEFITS:

- Suitable for both acid and alkaline processes
- Effective prior to wastewater treatment discharge
- Suitable for manual or automatic (metered) application
- Can be added on top or injected into solution

SPECIFICATIONS:

Specific Gravity (25C):	1.0
Flash Point (TCC):	None
Shelf Life:	3 years in sealed containers. 12 months after container is opened DO NOT ALLOW TO FREEZE

INSTRUCTIONS:

METALTREAT AF13-10 can be used as is, or diluted with water immediately prior to use. Usage will vary for each specific application and will have to be determined on a trial and error basis. *METALTREAT AF13-10* replenishment is most effectively accomplished with an automatic feed & bleed pumping system. It is recommended the minimum volume of *METALTREAT AF13-10* required to control foaming be determined by trial and error; and added on an automated basis to minimize over use.

DISPOSAL:

Dispose of container and unused contents in accordance with federal, state and local requirements.
