AQUA SERIES 960 N

Neutral Fountain Concentrate

DESCRIPTION: A cost effective neutral fountain concentrate specifically designed for newsprint applications. ***AQUA SERIES 960 N*** contains desensitizers that provide excellent startups and restarts resulting in minimum paper waste. This product contains wetting agents for good ink and water balance and also keeps blanket piling to a minimum. ***AQUA SERIES 960 N*** contains a unique blend of biocides which inhibit bacterial growth caused by contaminants which accumulate during the course of normal pressroom operations. The biocides effectively prevent the odor problems associated with bacterial growth in addition to maintaining the effectiveness of the plate desensitizers.

SPECIFICATIONS:

Flash Point (TCC):	None
Appearance/Odor:	Clear blue liquid/mild odor
VOC Content (EPA Method 24):	0.5 lbs./gal.

INSTRUCTIONS: Mix 2 ounces of ***AQUA SERIES 960 N*** to each gallon of water. Each ounce will increase conductivity by approximately 550 micromhos over the waters conductivity. Increase dosage for sensitivity issues, decrease for ink emulsification.

BENEFITS:

- Low VOCs
- No SARA Title III, Section 313 reportable chemicals
- Excellent restarts
- Reduced piling
- Low dosage
- Biocides to control bacterial growth and their associated odor
