LOW VOC WASH 6056

Low VOC Non-Combustible General Press Wash

Description:

An all purpose low VOC non-combustible wash for use on both sheetfed and web presses. In one step, **LOW VOC WASH 6056** effectively removes ink and contaminants from rollers and blankets. It does not require a water rinse, but can be used with water to remove paper lint and coating.

Directions for Use:

ROLLER WASH: Pour a generous amount of **LOW VOC WASH 6056** on rollers while press is running. Allow press to run while solution works on rollers. Engage wash up blades. When rollers are clean, press is ready to resume operation. Repeat process for difficult clean-up situations.

BLANKET WASH: Pour a liberal amount of **LOW VOC WASH 6056** on a cloth. Wipe across blanket until residual ink and glaze are removed. For excessive paper coating and lint build-up, dampen cloth with water before applying **LOW VOC WASH 6056**.

Specifications:

Appearance:	Clear amber yellow liquid
Density:	7.0 lbs/gal
VOC Content: (EPA Method 24)	4.0 lbs/gal, 480 g/L, 57%
Flash Point:	>200°F
