PLASTIC PLATE DESENSITIZER

Fountain Additive

Description:

Designed to prevent scumming and tinting problems that typically occur when running plastic or polyester plates with a conventional fountain solution. ***PLASTIC PLATE DESENSITIZER*** contains ingredients that adhere to the non-image areas of silver emulsion plastic plates and promote a "water loving" environment for the non-image area.

Directions for Use:

Add 0.5-1.5 ounces of ***PLASTIC PLATE DESENSITIZER*** to each gallon of press ready mix. A good starting point is 1.0 ounces per gallon.

PLASTIC PLATE DESENSITIZER is compatible with both metal and plastic type plates. RBP recommends using with its ***UNITROL® 192***. Call an RBP Technical Service Representative for more information.

Specifications:

Appearance:	Clear white liquid
Density:	10.0 lbs/gal
VOC Content: (EPA Method 24)	None
Flash Point:	None
