PLATINUM 1961

Fogra 3 oz Mild Acid Conventional Fountain Concentrate

Description:

A Fogra approved mild acid fountain concentrate designed for use on coldset web presses equipped with conventional dampening systems. ***PLATINUM 1961*** contains components for effective desensitization of the non-image area and wetting agents that provide superior ink and water control.

Directions for Use:

Mix 3 ounces of ***PLATINUM 1961*** to each gallon of water. Increase dosage if sensitivity occurs, decrease dosage if roller stripping or ink emulsification is observed. Each ounce per gallon of ***PLATINUM 1961*** will raise the conductivity by 350 micromhos/cm over the water's conductivity.

Specifications:

Appearance:	Clear to slightly hazy green liquid
Density:	8.7 lbs/gal
Conductivity:	350 micromhos/cm per ounce
pH, diluted:	5.0-6.0
VOC Content:	None

This product should be used only for its intended purpose. The information stated above is based on our laboratory tests and experience, and is accurate to the best of our knowledge. Since actual use is beyond our control, the recommendations or suggestions are made without warranty, expressed or implied.
