PureCoat

Web Finishing Solution in five varying concentrations: PureCoat 200, PureCoat 400, PureCoat 600, PureCoat 800, PureCoat 1000

Description:

A series of web emulsions designed to eliminate marking and static buildup on the web of paper during the folding, cutting and stacking operations. These emulsions contain additives for enhanced performance and make for trouble free finishing. Available in various concentration levels to meet specific needs.

Directions for Use:

Mix web finishing solution according to manufacturer's specifications. As determined through product analysis and specific printing needs. For specific recommendations, contact an RBP Technical Representative.

Specifications:

Appearance:	Milky white emulsion
Density:	7.6-8.1 lbs/gal
VOC Content: (EPA Method 24)	None
Flash Point:	> 212 °F
