USA WASH

Highly Dilutable Low VOC General Press Wash

Description:

An all purpose highly dilutable low VOC wash for use on both sheetfed and web presses. In one step, **USA WASH** effectively removes ink and contaminants from rollers and blankets. It does not require a water rinse, but can be used with water to remove paper lint and coating.

Directions for Use:

ROLLER WASH: Add 1 part **USA WASH** to 4 parts water and apply to rollers while press is running. Allow press to run while solution works on rollers. Engage wash up blades. When rollers are clean, press is ready to resume operation. Repeat process for difficult clean-up situations.

BLANKET WASH: Add 1 part **USA WASH** to 5-7 parts water, mix and apply solution to a cloth. Wipe across blanket until residual ink and glaze are removed. For excessive paper coating and lint build-up, dampen cloth with water before applying **USA WASH**.

Specifications:

Appearance:	Pale amber liquid
Density:	6.8 lbs/gal
VOC Content: (EPA Method 24)	4.1 lbs/gal, 492 g/L, 61%; 0.8 lbs/gal, 98 g/L, < 10% when diluted 1:4 in water
Flash Point:	>200°F
