UV WASH

Press Wash for UV Inks

DESCRIPTION: A highly effective press wash for the removal of UV inks and coatings. A unique blend of solvents dissolves both oil and water soluble contaminants, allowing for a complete and thorough clean up of all residual inks, glazes and lint.

SPECIFICATIONS:

Flash Point (TCC):	54°F
Appearance/Odor:	Clear colorless liquid/solvent like odor
VOC Content (EPA Method 24):	7.1 lbs./gal.

INSTRUCTIONS:

BLANKETS:
Saturate a clean cloth or rag with ***UV WASH***. Wipe evenly across blanket until all ink and residue are removed. Remove excess.

ROLLER WASH:
Pour a generous amount of ***UV WASH*** on rollers while press is running. Allow press to run while solution works on rollers. Engage wash up blades. When rollers are clean, press is ready to resume operation.

BENEFITS:

- Leaves no residue
- Penetrates and dissolves UV inks quickly
- Even, moderate evaporation

CAUTIONS: Proper handling and storage precautions should be taken. This product is flammable and should be kept away from heat and open flames. Consult MSDS for further information.

This product should be used only for its intended purpose. The information stated above is based on our laboratory tests and experience, and is accurate to the best of our knowledge. Since actual use is beyond our control, the recommendations or suggestions are made without warranty, expressed or implied.
