UNITROL[®] 946

One Step Mild Acidic Fountain Concentrate

DESCRIPTION: A mildly acidic one step fountain concentrate designed to run on web presses with any type of dampening system. **UNITROL 946** contains a unique blend of desensitizers, buffers and wetting agents that provide excellent restarts with digital type plates. The mild pH (i.e. 4.8 to 5.5) gives **UNITROL 946** the ability to run with acidic and alkaline type paper stocks with minimal problems.

SPECIFICATIONS:

Flash Point (TCC):	None
Appearance/Odor:	Clear blue green/mild odor
VOC Content (EPA Method 24):	0.6 lbs./gal.

INSTRUCTIONS: Start with a mixture of 4 ounces of **UNITROL 946** to each gallon of water. Increase dosage if sensitivity or high water settings occur. Reduce if roller stripping or ink emulsification starts to occur. Each ounce of **UNITROL 946** will increase conductivity by approximately 475 micromhos over the waters conductivity. The pH will fall between 4.8 and 5.5, depending on the waters hardness and alkalinity.

BENEFITS:

- Mild acid for alkaline paper stocks
- Low VOCs
- No SARA Title III, section 313 chemicals, glycol or glycol ethers
- Non-glazing
- One Step
